## **Paso Robles District Sales Manager Celebrates Ten Year Anniversary with Delta Liquid Energy**

New customer sales are at the forefront of his specialty

PASO ROBLES, CA (December 4, 2008) – Delta Liquid Energy (DLE) is pleased to announce the ten year anniversary of Ken Sauret, Paso Robles District Sales Manager. Sauret is responsible for acquiring industry referrals. He helps ensure that customers' delivery, purchase, safety, billing and service needs are being met within the Paso Robles district.

"I have great admiration for Ken's desire to provide excellent technical and strategic insight to his associates as well as his ability to resolve customer complaints, maintain current customer relationships, and continually create new ones," said William Platz, President of DLE.

Prior to coming to work for DLE in 1998 Sauret worked for another local propane company. With 15 years combined experience in the propane industry Sauret is a valued employee. His industry referrals were initially obtained by knocking on doors in the Paso Robles area. Since then he has built up a strong customer base and regularly works with local contractors and real estate agents to acquire new leads.

Sauret was born and raised in Paso Robles, California. His great grandfather came to Paso Robles from France in 1885. Sauret has been married to his wife Sherry for 20 years. They have three children, Wesley, Ashley and Kenna. His children are fifth generation Sauret's in the area.

Aside from serving as the District Sales Manger for Paso Robles branch office, Sauret is a professional bass fisherman. He recently participated in the National Championship FLW Stren Series in Table Rock, Missouri. Only the top 40 fisherman from five U.S. regions were chosen to participate in the National Championship.

Delta Liquid Energy is a third-generation, family-owned and operated propane marketer headquartered in Paso Robles. The company has been in business since 1936 and operates ten service facilities throughout California.
